Table of Contents: Volume 5, 1996

Number 1

Spectra of Some Interesting Combinatorial Matrices Related to Oriented Spanning Trees on a Directed Graph ..... *Christos A. Athanasiadis* 5

Non-Stanley Bounds for Network Reliability ..... *Jason I. Brown and Charles J. Colbourn* 13

Delaunay Transformations of a Delaunay Polytope ..... *Monique Laurent* 37

Commutative Association Schemes Whose Symmetrizatons Have Two Classes ..... *Sung Y. Song* 47

On Distance-Regular Graphs with Height Two ..... *Masato Tomiyama* 57

Number 2

A Classification of 2-Arc-Transitive Circulants ..... *Brian Alspach, Marston D.E. Conder, Dragan Marušič and Ming-Yao Xu* 83

Perfect Matchings of Cellular Graphs ..... *M. Ciucu* 87

Finite Flag-Transitive $A_{n-2}L^*.L$ Geometries ..... *Hans Cuypers and Antonio Pasini* 105

Strong Connectivity of Polyhedral Complexes ..... *Peter Greenberg and Martin Loebl* 117

On Young's Orthogonal Form and the Characters of the Alternating Group ..... *Patrick Headley* 127

Two Variable Pfaffian Identities and Symmetric Functions ..... *Thomas Sundquist* 135

Singularities of Toric Varieties Associated with Finite Distributive Lattices ..... *David G. Wagner* 149

Errata 167

Number 3

A Hecke Algebra Quotient and Some Combinatorial Applications ..... *C.K. Fan* 175

A Remarkable q, t-Catalan Sequence and q-Lagrange Inversion ..... *A.M. Garsia and M. Haiman* 191

A Note on the Homology of Signed Posets ..... *Phil Hanlon* 245

The Flag-Transltive C_3-Geometries of Finite Order ..... *Satoshi Yoshiara* 251

Number 4

Subspace Arrangements of Type B_n and D_n ..... *Anders Björner and Bruce E. Sagan* 291

Cycle-Closed Permutation Groups ..... *Peter J. Cameron* 315

Asymmetric Combinatorially-Regular Maps ..... *Marston Conder* 323

An Arithmetic Reduction of Finite Rank 3 Geometries with Linear Spaces as Plane Residues and with Dual Linear Spaces as Point Residues..... *Cécile Huybrechts* 329

Free Lie Superalgebras, Trees and Chains of Partitions ..... *Guy Melançon and Christophe Reutenauer* 337

On the Fully Commutative Elements of Coxeter Groups..... *John R. Stembridge* 353
